BIENNIAL REPORT OF AUDITOR OF STATE

Section 102, Compiled Laws, 1921; He shall digest, prepare and report to the Governor at least twenty days preceding each session of the General Assembly:

First. A detailed and full statement of the condition of the revenue and the amount of the expenditures for the two preceding fiscal years.

Second. A full and detailed statement of the public debt.

Third. Estimates of the revenue and expenditures for the two succeeding fiscal years, and the probable amount of revenue derivable from the various sources of revenue.

Fourth. Such plans as he may deem expedient for the support of the public credit, for lessening the public expenses, for promoting frugality and economy in the public offices, and generally for the better management and more perfect understanding of the fiscal affairs of the State.

Fifth. A tabular statement showing separately the whole amount of each appropriation of money made by law, the amount paid under the same, and the balance unexpended.

Sixth. A tabular statement showing the amount of revenue chargeable to each county for the two preceding fiscal years, the aggregate amount of each object of taxation, and the balance due from said counties respectively.

LETTER OF TRANSMITTAL

To His Excellency,
ED C. JOHNSON,
Governor of the State of Colorado.

Dear Sir:

I have the honor to transmit to you and through you to the General Assembly, the thirtieth biennial report of the Auditor of State, in compliance with Section 102, Compiled Laws of 1921.

An inadequate appropriation for office operations made necessary the omission from this report certain statistical information which would be of inestimable value to your office as well as to the general public.

The total receipts from all sources for the biennial period 1935-1936 amounted to $80,660,774.40. Disbursements and transfers for the same period were $66,610,845.10.

Total appropriations from the General Fund for the biennial period 1935-1936 amounted to $6,555,591.09. The total revenue of the General Fund, both actual and estimated, is $6,907,595.02. This shows an apparent surplus of $352,003.93. However, the following deficiencies have been created: Alien Invasion Certificates of Indebtedness, $5,100; Mental Defective Homes Certificates, $50,000; Colorado State Hospital, $235,000; Thirty-first General Assembly, $200,000; a total of $490,100, leaving a deficit of $138,096.07. In addition to this there are outstanding bills of the State Fair amounting to $130,467.35, thus making a grand total deficit of $268,563.42 for the present biennium.

An appropriation is not an actual expense, but solely an authority given to officials to create legal obligations up to a certain amount for a specified purpose.

In addition to the close supervision of expenditures afforded the Auditor of State, expenditures of all State departments, institutions, and agencies (except the University of Colorado) are budgeted in advance for each fiscal year under the provisions of Section 23, Chapter 37, Session Laws of 1933 (Administrative Code). All such allotments must be approved by the Governor and the Executive Council.

The biennial report of this office should include a full and detailed statement of the public debt—state, municipal, and school—showing not only the bonded debt, but amount of outstanding warrants, current accounts payable and other evidences of indebtedness. The information necessary to prepare this complete statement cannot be compiled with the present inadequate personnel in the department.

During the short period of my service as Auditor of State, and for the first time in a number of years, all accounts presented to the State for payment have been checked and verified. This operation proved most beneficial and has saved the State many hundreds of dollars.

Staying within appropriations and allotments is the exacting problem confronting those who control expenditures. Proper control of expenditures is possible only when records giving the exact status of each budget account are always available. An adequate appropriation should be provided this department for the installation of such budgeting control records and provision made as well for setting up an account for each person and firm with whom the State does business. Such account sheets would eliminate duplicate payments and make available, on a moment's notice, statistical information of inestimable value to the Governor and General Assembly.

THE BONDED DEBT

The bonded indebtedness of the State on June 30, 1934, was $5,271,200. The sum of $855,500 was retired during the period covered by this report, leaving $4,415,700 outstanding on June 30, 1936. During 1935, $564,000 of Insurrection Bonds, 1914, were refunded, reducing the interest rate thereon from 4% to 1¾%, and $2,956,000 Highway Bonds of 1921 were likewise refunded, reducing the interest rate on that issue from 5% to 2%. This refunding process effected an annual saving of approximately $70,000 in interest charges.

ANTICIPATION WARRANTS

On June 1, 1936, the State Highway Department, under authority of Chapter 124, Session Laws of Colorado, 1935, as amended by Chapter 3, Session Laws of Colorado, Second Extraordinary Session, 1936, issued Ten Million Dollars ($10,000,000) of State Highway Fund Revenue Anticipation Warrants, bearing interest at the rate of 2¾% per annum. These warrants, part of a total authorized issue of Twenty-five Million Dollars ($25,000,000), are dated June 1, 1936, and will mature annually, June 1, without option of prior payment. They are special obligations against the State Highway Fund and do not constitute an indebtedness of the State of Colorado within the meaning of any constitutional provision or limitation. There has been created what is known as the Highway Anticipation Fund for the payment of these warrants and interest thereon.

RECOMMENDATIONS

Mileage paid by the various State departments and agencies for the use of personally owned autos has reached a tremendous figure. The allowance for use of these autos is five and seven cents per mile. It is recommended that the several departments and agencies requiring regular and continuous intra-state travel provide autos for such purpose and that such autos be properly marked as State property and for official use only; and where it is necessary to use personally owned autos on State business, that the allowance be the railroad or bus fare. No employee should request the State to pay more for the use of his auto while on State business than railroad or bus fare.

I would respectfully call attention to the fact that 258 different funds are carried on the books of this office and the office of the State Treasurer. These initial setups are further subdivided into from three to ten supplemental funds. The setting up of so large a number of funds would seem analogous to a bank having a separate box to hold the deposits of each customer. Each new fund adds to the accounting cost of State government.

It clearly appears that the 258 funds of this State are far more than necessary.

I would suggest a segregation of the appropriations for the several agencies and departments into (1) Personal Service, (2) Maintenance and Operation, and (3) Capital Outlay, made uniformly and without any further supplemental segregations. This method gives more flexibility to the appropriation. The chances of abuse are slight because the Administrative Code, Section 23, requires every department, institution and agency of the State to submit to the Executive Council a work program for each fiscal year; such program shall show the allotments of the appropriation for the full fiscal year. A strict compliance with this excellent appropriation control statute prevents the misuse of funds.

Approximately 66% of State expenses are paid from cash funds (that is, the department or agency is authorized to use a certain percent of gross collections for expenses). The expenditure of such funds is not subject to control either by the General Assembly or the Executive Council. Therefore, it is recommended that so-called Cash Funds be abolished and all such moneys be paid into the State Treasury and credited to the General Revenue Fund, and from the General Revenue Fund appropriatd by the General Assembly to the departments for which intended. A number of necessary State departments are starved for lack of adequate appropriations, while others are over-fed because of too large a cash fund. There should be an equalization and redistribution of appropriations.

The establishment of numerous new revenue and license departments and agencies has resulted in the State's being over-run with revenue collectors and license inspectors. The present system of handling such work creates an unnecessary duplication of expense, and has also proven a source of much annoyance to the business interests of the State. Provision should be made for a consolidation and coordination of this work, so as to eliminate the employment of five or six separate sets of inspectors and collectors.

I further recommend that proposed legislation be presented, before passage, to the heads of such offices or departments as might be affected thereby, for their consideration and suggestions. Such cooperation would be mutually beneficial, and make for better legislation and a better understanding between the Legislative and Executive Departments of the State.

I would also recommend that the function of auditing the accounts of the several counties, municipalities and school districts be returned to the Auditor of State by providing an adequate appropriation to do this work, and a uniform accounting system be installed for all these governmental subdivisions. It is our experience that more public funds are dissipated through failure of public officials to understand the laws, than through dishonesty. It should be more the purpose of the Auditor of State to assist, than to prosecute. Largely through ignorance and lack of uniform practice thousands of dollars of illegal expenditures are being made throughout the State.

Collection of State revenue is just as important a function of State government as making provision for such revenue. Doubtlessly thousands of dollars are annually lost to the State Treasury through failure or neglect of departments and agencies to properly perform the duty of col-

lecting all revenue under their control. The records and accounts of all departments and agencies, charged with the collection of State revenue, should be examined and audited at least twice each year, and the Department of Auditing allowed a sufficient number of qualified State examiners (Sec. 314 C. L. 1921) to perform this service.

CONCLUSION

This report would be incomplete had I failed to express my keen appreciation of the cordiality and kindness always accorded me by your Excellency. It has been a constant source of satisfaction to feel that I enjoyed the respect and friendship of you and all other Executive officials of the State, individually and collectively. I have always been happy to regard it as an essential part of my duties to furnish such officials, whenever requested, information regarding the fiscal affairs of the State.

To my fellow office workers, I express my sincere appreciation of their splendid loyalty and efficiency.

REPORT

OF

PUBLIC EXAMINER

December 24, 1936.

HONORABLE HOMER F. BEDFORD,
Auditor of State,
Denver, Colorado.

Dear Sir:

I submit herewith the report of the Department of Public Examiner for the biennial period ending June 30, 1936.

Schedules for State institutions are for the fiscal years ending June 30, 1935, and June 30, 1936, while all schedules pertaining to county funds are for the years ending December 31, 1934, and December 31, 1935.

The schedules of receipts and disbursements are classified by groups which makes possible a comparative analysis of the amounts received and expended upon items of similar nature for three successive years.

Respectfully submitted,

J. M. WOOD,
Public Examiner.
